

## ***Published in BC Homes Magazine***

Designed for year round living, or the perfect retreat, the seven whole ownership, direct waterfront suites of Vista Verona are breathtaking. From the moment you drive down the private lane to its gates to the time your boat hits the water – not a single detail has been overlooked. The exclusive atrium surrounding the entrance becomes your own secret garden, leading to a prestigious lifestyle on the water with your own private moorage and boat slip just footsteps from your door.

Each of the six main suites are just under 1800 sq ft with 2 bedrooms plus a media room/den. Deep-seated spa tubs, Italian tile work and pebble-stone shower floors create a relaxing air in the 2 full baths. The kitchen, living and dining spaces have an open concept, framed by floor to ceiling glass looking down to your private piece of Okanagan Lake.

Full soundproofing throughout provides extreme privacy and only small common hallways separate the suites from a centralized elevator.

The Penthouse is the epitome of luxury. Elevated ceilings and ample hallways expand the already spacious 2900 sq ft sky home - every amenity reflecting elegance and style. With three full bedrooms, three full luxurious spa baths, a double soundproofed private theatre, walk in pantry, two kitchen islands, natural stone tiled gas fireplace and Italian tile throughout, there truly is nothing else like it on the water.

A series of floor to ceiling windows wrap from the kitchen, through the elegant dining and living areas, offering endless, sweeping lake views. An immense 800 sq ft covered sundeck with 17 ft high canopy expands to your outdoor kitchen, living and dining spaces to enjoy warm summer breezes, barbeques and beautiful starry nights.

For those seeking an investment, Vista Verona is guaranteed to provide an exceptional rate of return. Lakeshore properties continue to rise dramatically in value and the north end of Okanagan Lake is just beginning to capture the attention of buyers.
